2030**

ESG framework strengthened and ESG Vision framed - 2021

Published maiden Integrated Annual Report - 2020

Strong focus on sustainability while defining Purpose statement - 2015

This year, the total reclaimed rubber has been 9,158 MT of the total raw materials procured.

CEAT's constant efforts to source raw materials in a sustainable manner led to an increase of ~13% renewable materials over the previous year.

Strengthening existing sustainability practices while developing long-term vision and goals

Energy Cost Savings:
Total Energy Savings is ₹ 16.94 Crores

CEAT's efforts have led to an overall decrease in greenhouse gas emissions (Scope 1 and 2) by approximately 13%.

Water Consumption Targets: Reduce 10% of water consumption in FY 2021-22

Efforts and recognitions

1.27 Million GJ
Renewable energy
consumed

9,158 MT
Reclaimed rubber used

1,772 tCO₂e
Emissions avoided

32,785 GJ
Energy savings
achieved in FY 2020-21

Plant in Chennai has been awarded Platinum under Indian Green Building Council ('IGBC').

INPUTS

- Use of renewables
- Energy management
- Water management
- Environmental management system
- Waste management

OUTPUTS

- Total material recycled
- Specific energy consumption
- Waste generated and recycled
- Specific water consumption reduced by **20%**
- Scope 1 and 2 emissions reduced by **13%**

OUTCOMES

- Reduced environmental footprint.
- Proactive environmental sustainability plan
